CAREER Objectives

To obtain a challenging position where I can maximize my organizational and interpersonal skills and knowledge which will contribute my years of experience that will allow me to grow personally and professionally.

ABOUT

Experienced in web application development having good practical knowledge of both frontend & backend. Having 3+ years of experience in PHP CodeIgniter & around 1 year of experience as a MERN Stack Developer.

Front End Development

I have working experience in HTML, CSS, SCSS, JavaScript, jQuery, Bootstrap, having good knowledge of responsive designs & integration of third-party JS plugins.

MERN Stack

I have practical experience in developing full-stack applications - creating RESTful APIs using Express & NodeJS, consuming RESTful APIs using libraries like Axios & fetch, Authentication using JWT Token, form data handling using formik, form validation using Yup, Application State Management using Redux, Protecting the Routes in front end as well as in the backend, worked with uploading the static assets on Cloudinary, experience with Payment integration (stipe). Also worked with the YouTube Data API & other restful APIs, have familiarity with git & Github, deploying application/database on platforms like Heroku & Atlas Clouds through Github.

XAMPP Stack

I am also good at Core PHP & CodeIgniter frameworks. Worked mostly in CodeIgniter 3, aware of MVC Design pattern. Developed many CRUD-based apps with authentication and email features.
